ORGANOGRAM of Modern Structures Ltd.

Site organization

Everything needs to know about organizing a safe and healthy construction site. Usually we focus following major components for properly organize the site work.

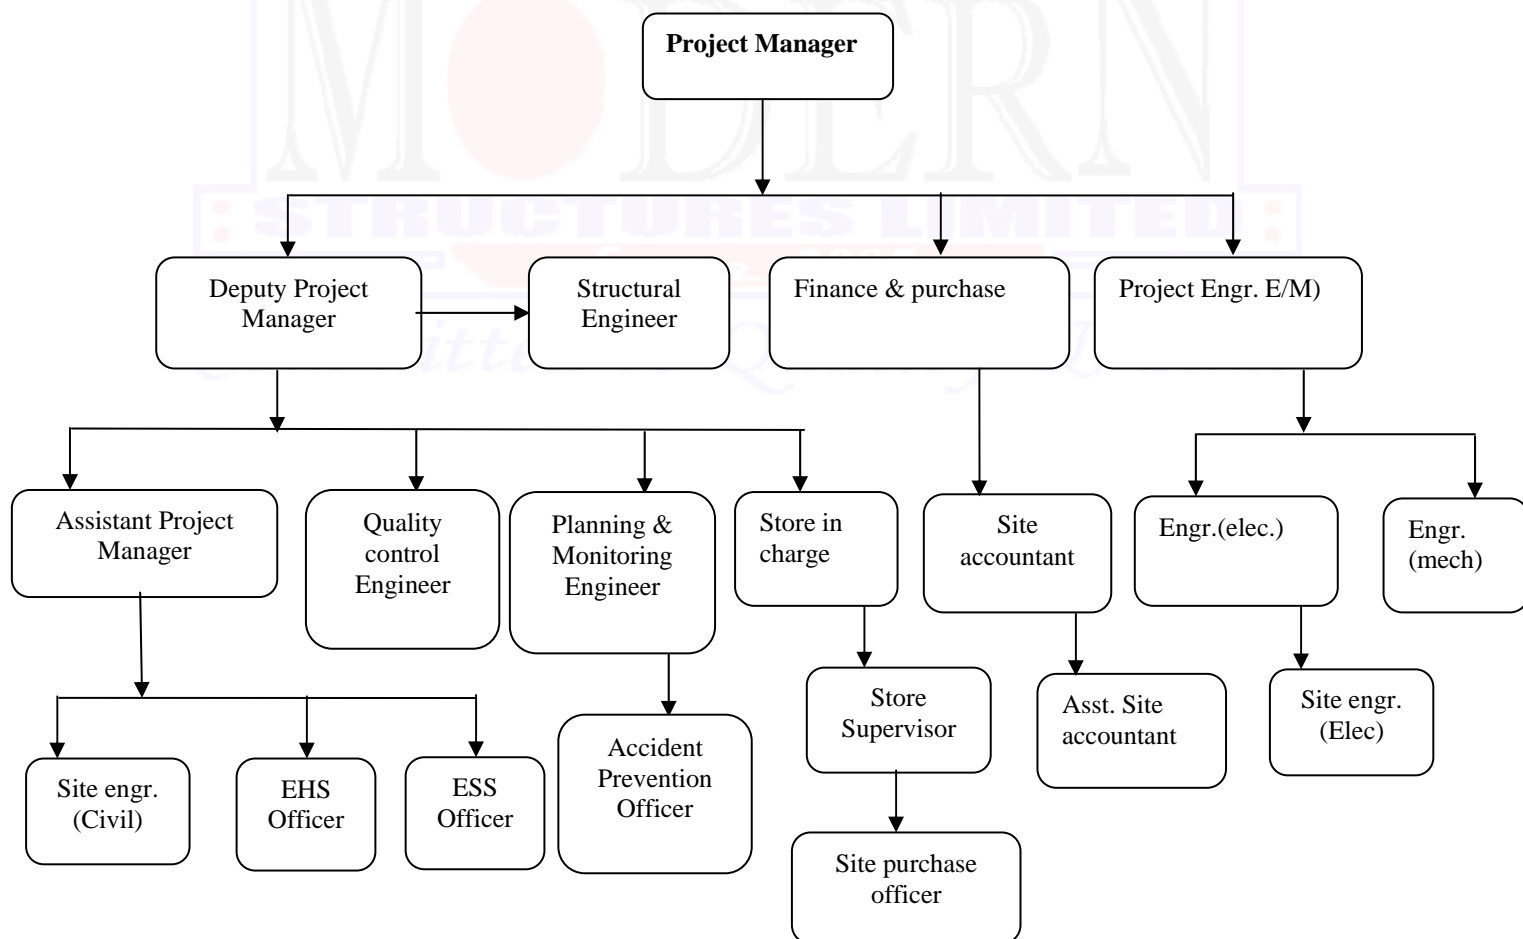

Traffic management - Ensures that moving vehicles do not present a hazard to people working on, or visiting, the site.

Protecting the public - Details the specific measures for protecting members of the public on site and preventing access by unauthorized people, including children.

Materials storage and waste management - Guidance on storing materials safely to prevent hazards and make sure that waste is removed and disposed of safely.

Welfare - Legal requirements for welfare facilities on construction sites, for example providing toilet and washing facilities, drinking water, rest areas, changing rooms and lockers.

Administration - The paperwork need to manage the site legally and safely. The total activities will be performed by qualified management with standard Organogram.

A Short Description of the Company	<p>: About Modern</p> <p><i>Modern Structures Ltd.</i> started its formal operation with most experienced and self recognized professional each member of its top management and the key roles that they play in our business. We are having more than 16 Years of Quality Metal Construction Experience. We are being backed up by a team of quality Professionals working for last many years in the Metal Roofing, Cladding and Pre-Engineering Metal Building Industry. We are pleased to introduce ourselves as one of the organization doing complete solutions of design, manufacture, supply and installation of Modern color coated steel Roofing, Wall Cladding and Pre-Engineered total Building Systems. Modern Structures Ltd. has ability to fabricate small, medium and large scale orders for steel building products. We serve in the following fields of industries: Ceramics, Warehouse, Garments, Knit Dyeing, Chemicals, Textiles, Spinning, Poultry, Feed mills, Food and Beverage, Furniture's, Parking sheds and multistoried commercial buildings and many more.</p>
Short Biography of the Key Person	<p>: Md. Rashed Khan, is a Bangladeshi citizen, He has Science educational background & MBA-Marketing from (AUST). He is an industrialist and successful businessman. He has established companies Native Land and contributing to the national economy by earning foreign currencies. His companies has distinctive expertise and leading position in manufacturing the Pre-Fabricated Steel Building, designing, fabricating and erecting steel buildings and tower as well that playing a leading role in flourishing, Civil Constructions and Indenting business in Bangladesh. Now he is General Secretary of SBMA, Director of BIAA and GB Member FBCCI. In his 20 years business carrier he has been recognized as best entrepreneur several times in Bangladesh as well as abroad. Cell: +88 01711 52 76 40</p>

Our Mission

Modern Structures Ltd. is committed to total customer satisfaction by maintaining proper quality and delivering proper time.

Modern Structures Ltd. always promise give cost-effective solutions by the use of latest software and technologies.

Modern Structures Ltd. will be a Leading Globally Competitive Company in the field of Pre-Engineered Steel Structures and Buildings.

Modern Structures Ltd. shall adhere to the highest ethical business practices.

Modern Structures Ltd. shall encourage continuous learning of the latest technology and systems.

Modern Structures Ltd. shall continuously invest in upgrading machines and design process for maximizing safety and material utilization and minimizing defects.

Modern Structures Ltd. shall never compromise on quality and safety.

Our Vision

With an innovative environment **Modern Structures Ltd.** is constantly creating value and attaining benchmarks in the Civil & Pre-fabricated Steel Building Industry.

It is being accomplished through product perfection, engineering excellence, the best customer service and best relationship with customers in the industry.

MSL Services

We believe first listening to our customers. What are their aspirations? Once it is understood, we believe in exceeding our customer's goals through our technical expertise to make our customers fully satisfied.

We believe that the most successful projects with technical and aesthetic goals are always the product of a "team effort" where customers, management, technical and marketing professionals share a common goal.

Therefore, we pay major emphasis on initial project understanding, then our task is to 'breathe life' into the program and develop an approach which shall satisfy all parties. We have streamlined our process to deliver the highest quality products in shortest possible time.

Why MSL

Consistent Product Quality

ZINCALUME & COLORBOND steel as ingredient material for roofing and wall cladding application.

Comprehensive Material Package

Complete building shell
Accessories

Cost Competitiveness

Single source responsibility
Reduced manpower and requirement needs
Design flexibility
Less time-consuming

Flexibility

Design layout based upon process requirements
Architectural flexibility
highly adaptable for future expansion (during specification and erection)

Engineering Capabilities

From concept to final design
fully staffed engineering team

Manufacturing Capabilities

Product flexibility
Reduced Time frame

Erection Capabilities

Builder network including fully trained erectors.
Knowledge of local codes
Knowledge of local construction methods

Transportation Capabilities

Dedicated transportation specialist for timely delivery.

QUALITY POLICY of ***MODERN STRUCTURES LTD.***

We at *Modern Structures Ltd.* shall aim to achieve and sustain excellence in all our activities. We shall produce, supply and install customer desired level of pre-fabricated steel structures and maintain credibility in the market for the quality of our products and services all times.

We are committed to total Customer satisfaction and continual improvement in our performance to meet customer expectations at all times. We are also committed to meet all legal and regulatory requirements.

We are further committed to develop a motivated workforce with a sense of pride in the organization which will lead us towards being the best in the industry and working in harmony with the environment.

STRENGTH of *Modern Structures Limited*

Best Possible Product

At *Modern Structures Limited* we produce quality products by using the best engineering software developed globally. Moreover, we have chosen the best and latest high-tech machinery to deliver high quality products to our customers. We have a highly experienced quality conscious workforce and maintain Quality Control (QC) operation at every stage of production. Our Quality Management System is compliant with the requirement of ISO-9001: 2015, ISO-14001: 2015, ISO-15001: 2018.

Professional Sales & Customer Service

Our customer oriented Sales Engineers are always at hand to attend to any queries with the utmost attention to details. The highly professional Customer Service Department minutely looks into each project to offer the most economical solution to clients' need. Proposals generated by *Modern* Sales & Customer Service Team fulfill customer requirements, as a truly professional offer is generated that not only contains competitive pricing but also includes detailed drawings so that customers get a true picture of the proposal for assessment at their end.

Expertise in Engineering

Modern Structures Limited has a host of qualified and professional engineers who have had years of experience in the construction business of the country.

Excellence in Co-ordination and Team work

The Project Department ensures that smooth co-ordination is achieved between Sales, Engineering, Production Departments and customers. The co-ordination is done on a daily basis and starts from the point of sales till conclusion of building erection. This coordinated effort helps in smooth running of projects and keeping customers updated on the progress of their construction work.

ADVANTAGES AND APPLICATIONS

Modern Structures Limited from its factory in Gazipur delivers uncompromising quality products to the growing demand for Pre-engineered and Structural Steel Buildings. The company produces a range of steel products for:

- Factory Buildings
- Warehouses
- Power Plant Shed
- Gymnasiums
- Poultry and Dairy Farms
- Cold Storages
- Railway Platform Shed
- Office and Residential Multi storied Buildings
- High Rise Shopping Centers
- Showrooms
- Supermarkets
- Distribution Centers
- Aircraft Hangers
- Exhibition Halls
- Labor Camps
- Entertainment Parks
- School and College
- Low cost housing
- Steel Mills
- Hospitals
- Diagnostic Centers
- Bridge Girders
- Water Towers
- Steel Platforms
- Steel Over Bridges
- Steel Stairs
- Various other usages.

Safety Measures

Safety is a prime focus at *Modern Structures Limited*. Apart from following accepted industry standard safety measures in our factory, we religiously follow international safety codes in our structural designs as well. The structural steel design is done in accordance with BS 5950 part 1 and BS 5950 part 5/American codes/BNBC-93 and sometimes Australian Codes as well. The Loads are applied in accordance with BS 6399 loading of Building Part1: 1984: Code of practice for dead and imposed loads. Part2: BNBC/93 for wind and earthquake loading.

Health & Safety

At *Modern Structures Limited*, health and safety issues are an integral part of our production process. Continuous improvement in health and safety performance at every level of the Company is our goal of Zero Harm to people.

The following beliefs form the basis for achieving our goal of Zero Harm:

Working safety is a condition of employment

- Employee involvement is eventual
- The Management is accountable for safety performance
- All injuries can be prevented
- Training employees to work safely is essential
- All operating exposures can be safeguarded
- Despite all precaution, employees' health liability hospitalization insurance is ensured
-

Quality Control

Utilizing the latest computer software for design and detailing of pre-engineered and structural steel buildings, *Modern Structures Limited* provides the most competitive designs and the highest quality drawings - mostly within seven to ten days ensuring clear representation of customers' project requirements. This enables faster construction at site.

Strength in Delivery and Erection of Steel Structures

Our structural steel division has the capability and capacity to supply structural steel buildings for any type of projects such as Desalination and Power Plants, Steel Mills, High Rises, Bridge Girders, Office Buildings, Factory Buildings, Water Towers, Steel Platforms and other complex structures.

In special cases where complex design is required for projects, like the petrochemical or oil and gas sector, we draw on the technical skills of world renowned experts in the field with whom we retain joint venture agreements.

Crane System

Our building can be designed to support any required crane system. Overhead traveling cranes of up to 15 metric tons are supported on brackets. Higher capacities are usually supported by an independent support system. Our quotations for buildings with crane systems usually include column or rafter brackets, crane runaway beams and bracings. We do require the customer's complete crane system information in order to design and estimate buildings with cranes.

Environment

we care for the environment and place great importance on the way we manage the effect of our operations and products in our communities.

SOFTWARE AND DESIGN

We are committed to the efficient use of resources, reducing and preventing pollution and product stewardship, focusing on all aspects of the product lifecycle.

We emphasize more on quality in design. We have our own licensed Software like STAAD- Pro, ETABS, TEKLA, SAP, and Quick Series, which are widely used in our design section. We always try to procure latest design manuals for our designers. We have latest Steel Construction Manuals: AISC Steel Construction manual Vol-13, MBMA Metal Building System Manual, Edition 2002, AISI Structural Welding Code – Steel, Edition: 2006.

INTERNATIONAL DESIGNCODE:

MSL applies the following codes for Load Calculation and design of buildings:

1. Bangladesh National Building Code 2020
2. Bangladesh National Building Code 2006

LIST OF GOODS & SERVICE

Civil Works Service:	
SL No.	Scope Of Work
1	Conducting survey work
2	Earth work in excavation
3	Back filling in foundation trenches & plinth
4	Sand filling in foundation trenches and plinth
5	One layer of brick flat soling under Grade Beam
6	One layer of brick flat soling under brick bond floor
7	1:3:6 mass concrete in foundation or floor
8	Providing and laying double layer polythene sheet
9	Reinforced cement concrete works (1:1.5:3) of specified compressive strength f_c 24 Mpa at 28 days on standard cylinder, with cement (Scan/Holcim/Akij/Bashundhara/Crown) conforming to BDS 232 & ASTM standard stone chips using wooden material as shutter, best quality coarse sand [100% quantity of Sylhet sand F.M. 2.5] and 20 mm down well graded brick chips in/c breaking chips and screening through proper sieves, making, placing in position the centering shuttering, making shuttering water-tight, placing of reinforcement in position; concrete mixing with mixer machine, casting in forms, compacting by vibrator machine and curing at least for 28 days, removing centering shuttering, all complete including cost of water, electricity, testing of materials and concrete & other charges as per direction of the engineer-in-charge.
	Footing use stone chips or Bricks Chips
	Column use stone chips or Bricks Chips
	Grade Beam use stone chips or Bricks Chips
	Ground Floor Brick bond slab or Bricks Chips
	Ground Floor top casting use stone chips or Bricks Chips
	Lintel use stone chips or Bricks Chips
	Ramp use stone chips or Bricks Chips
10	Supplying, fabrication and fixing to details as per design M.S deformed bar 60 grade (BSRM/KSRM/AKS/Magnum Steel/Baizid Steel) deformed bar with minimum $f_y = 415$ Mpa
11	250 mm thick brick work
13	Minimum 12 mm thick cement sand
14	Plastic emulsion paint
15	Minimum 12 mm thick cement sand
16	Steel Shutter or Wood Shutter
17	Supplying, fitting and fixing GP homogeneous Tiles
18	Supplying, fitting and fixing sound proof double leaf door
19	Supplying fitting and fixing of Aluminium swing door with spandrel
20	Supply fitting and fixing of 10mm thick tempered clear double glass window height as per design
21	Supplying, fitting and fixing of SS pipe stair railing height as per design
22	Providing brick works for facing in superstructure
23	Supply and Installation of Fire Door.

Steel Structural Materials with Specifications			
SL No.	Item Name	Materials Specifications	Origin Of Country
1	Anchor Bolts	ASTM A36 Grade 36 with Nut and Washer.	Bangladeshi
2	Built up section Column, Rafter, Base plate, Connection plate, stud Member etc	Supply & Fabrication of structural steel member (Column, Rafter, Base plate, Connection plate, stud Member) will be Built-up "I" section of M.S. steel plate of ASTM A572, Grade-50	Nippon Japan/Vietnam/ China
3	Purlin/Girt (C & Z)	Supply & Fabrication of Purlin & Girts C sections minimum yield strength of 340 Mpa (40,000 psi)	Posco C&C, South Korea
4	Sag Rod	Supply and fabrication of Shaft Rod (for sag rod) of Minimum yield strength $f_y = 275 \text{ N/mm}^2$ (40,000 psi) including all accessories.	Bangladeshi
5	Nut and Bolts	A325 M Type 1 Hot Dip Galvanized/ Din 933 HEX Head Bolt Grade 8.8/ 4.6	China
6	Cable Bracing	16 mm Dia cable Bracing Roof & Wall, ASTM - A475 - Extra High Strength Class A,	Korea
7	Primer Paint	Red/Gray Oxide & Enamel Paint	Bangladeshi
8	Profile Sheet Roof & wall	ASTM A-792M, Grade 550 Class 1, AZM-150, Reglar Polyester Paint Film: Top Side 25 Microns/ Back Service (12.5 Microns) grade -80, F_y -55.0	Tata Blue Scope/SYSCO/ Dongbu/equivalent
9	Accessories: Gable Trim, Bottom Flashing, Eave Gutter, Corner Capping Downpipe etc.	ASTM A-792M, Grade 550 Class 1, AZM-150, Reglar Polyester Paint Film: Top Side 25 Microns/ Back Service (12.5 Microns) grade -80, F_y -55.0	Tata Blue Scope/SYSCO/ Dongbu/equivalent
10	Down Pipe	Supply of down pipe by 150/125/100 mm dia u-PVC Pipe	Bangladeshi
11	50mm& 25mm Screw	Hot Dip Galvanized	Harpro, Taiwan
12	50 Rock-wool	50mm Rock-wool with 3mm PE Foam	China
13	Insulation	5/10 mm Double bubble Insulation Roof & wall	Bangladesh
14	Translucent sheet	Supply of 2-4 mm thick Translucent Sheet thermoformed to match the profile sheets and high quality FRP sheets manufactured using latest technology.	Bangladeshi

Our Company Comprises of:

LIST OF MACHINERIES AND ERECTION EQUIPMENTS

Sl.No	Name of machineries	Number
01	Shearing Machine	1 set
02.	H-Beam Auto Welding Line	1 set
03.	Surface Cleaning by Shot Blasting	1 set
04.	Automatic Submerged arc welding machine	6 sets
05.	Roof Sheet Forming Line	3 sets
06.	Purlin Forming Line	2 sets
07.	Cutting Machine	10 sets
08.	Bending Machine	2 sets
09.	Arc Welding Machine	30 sets
10.	Auto gas cutter set	10 sets
11.	Heavy duty drill machine	4 sets
12.	Magnetic drill machine	5 sets
13.	Screw Gun machine	25 sets
14.	Grinding machine - 7" dia	15 set
15.	Grinding machine - 4" dia	10 sets
16.	Heavy Duty Hammer drill machine	3 sets
16.	Hand drill machine	3 sets
17.	Sand blasting Machine	1 set
18.	Spray machine (painting)	5 sets
19.	Rivet gun	15 sets
20.	Torque wrench	20 sets
21.	Scaffolding 4 part /pcs	25 sets
22.	Hand cutter set	30 sets
23.	Chain coppa	20 sets
24.	Hand polar	15 sets
25.	Pully	30 sets
26.	MIG Welding Machine	05 sets
27.	TIG Welding Machine	04 Set
28.	Iron Worker (CNC Punching & Cutting Machine)	01 Set
29.	350 KVA Generator Set (Made in UK)	01 Set

ERECTION TOOLS:

Sl.No	Name of machineries	Number
01	Tower Crane	1 set
02.	Truck Mounted Crane	1 set
03	Hydraulic Crane	2 sets
04.	Crane for erection , capacity 5 MT (own + hired)	3 sets
05	Overhead crane(roof hoist)	5 sets
06.	Crane for erection, capacity 10 MT (hired)	2 sets
07	Erection Rig	20 sets
08.	Chain coppa/pulley	20 sets
09.	Hand polar	15 sets
10.	Pulley	40 sets
11.	Auto gas cutter set	10 sets

CIVIL CONSTRUCTION TOOLS:

Sl.No	Name of machineries	Number
01.	Mixture Machine	12 Nos.
02.	Vibrator Machine	14 set
03.	Generator	3 Nos.
04.	Plate compactor	2 Nos.
05.	Steel Scaffold	200 set.
06.	Brick Chips Making Machine	3 No.
07.	Spray Machine(Painting)	3 set
08.	Rope hoist	5 set
09.	Wooden Sutter	20 truck
10.	Hydraulic Pre-Cast Pile Driving Machine	02 Nos
11.	Steel Sutter	20,000 sft.

And all other relevant equipment's etc.....
